

Fellow Registrars,

NCRA's Virtual Annual Conference was fabulous! I hope you had an opportunity to attend. The Q&A portion of the presentations provided enhanced the learning. Congratulations all new CTRs!

We are pleased to announce MCR received the NAACCCR Gold Certification 2020 Registry of Distinction award for data timeliness and completeness based on 2018 submissions. We could not have accomplished this goal without you! Thank you for your efforts in submitting quality, timely data.

DUE DATES

To be on track, large hospitals (>500 cases/yr.) typically would be expected to have abstracted December 2020 diagnosis cases by July 15. Smaller facilities (<300 cases /yr.) would be expected to report the 4th Quarter of 2020 by July 15.

EDUCATION

NAACCR Webinars

We are now offering Live webinars in our new office!

Attention: This month the NAACCR Webinar is on the second Thursday instead of the first Thursday of the month.

July 8, 2021, 8-11 a.m., **"NAACCR Webinar-Quality of CoC Accreditation"**. To attend the live broadcast in Columbia, sign up here: <https://www.signupgenius.com/go/30e0e4ba9a823a6fb6-naaccr1>

New Address:

Missouri Cancer Registry & Research Center
1020 Virginia Ave.
Columbia, Mo 65211

Visitor Parking (Virginia Avenue Garage) for NAACCR Webinars

Only those with a valid Virginia Ave Garage visitor permission pass will be allowed to park there. A visitor pass costs \$5 a day. Violators are subject to ticketing and towing. You can purchase a visitor pass online at <https://mu.nupark.com/portal/Account/Login?ReturnUrl=%2fportal%2f>

Enter the **South Entrance** of the Virginia Avenue Garage, go up the ramp and turn **right**. Park on levels 3, 4 or 5. Take the elevator located on the west side of the garage down to the 1st floor. MCR is located across from the elevators.

MCR Help-Line

Reach us at 1-800-392-2829 during regular office hours or leave a message; a member of our QA team will return your call within one business day.

Fundamentals of Abstracting Class – Fall 2021

MCR would like your input! Do you have staff that would like to attend the Fundamentals of Abstracting Class? If so, how many? Would your preference be to attend in person or remotely?? Please email your preference to me at lahf5p@missouri.edu.

MCR NEWS

Software Conversions

Your registry software vendors can provide you with v21 software to be used in abstracting 2021 cases. Missouri customizations including a MO v21A metafile were previously provided to all vendors. A new edits metafile v21B was recently released by NAACCR and a MO customized version was sent to all vendors on March 30, 2021.

Please upload any completed v18 files to MCR before your conversion. Hold any cases abstracted in v21 until MCR announces that Web Plus has been converted. We hope to have the new version available in July. We will announce when v21 is live via a blast email. Once Web Plus v21 is live, it should be able to accept either v18 or v21 files. You can then send any held cases.

Abstract Plus for MO is also expected to be available in July as well.

Death Clearance – Death Clearance (DC) follow back for the reporting year 2019 is just around the corner! Please be on the lookout for a separate notification email in the coming weeks regarding the official start of the death clearance follow back process.

The DC process will essentially be the same as last year. If there has been a recent change in staffing at your facility, please complete and return our Web Plus User Contact Form found at <https://medicine.missouri.edu/centers-institutes-labs/cancer-registry-research-center/web-plus>. It is important for us to have current Web Plus User contact information to ensure that your facility receives the Death Clearance follow back request and announcements. We truly appreciate your contributions to make this project successful; the information you provide is an essential part for MCR in meeting our annual goals!

MCR has moved! We have settled in our new location at 1020 Hospital Drive, Columbia, MO 65211. We are located on the 1st floor of the Virginia Street parking structure between the hospital and the Missouri Orthopedic Institute.

New MCR Data Coordinator – We welcome Deborah Carey, CTR! Deborah is the newest member of the QA team who comes to us from the hospital setting. We welcome her knowledge and expertise.
