

Missouri Cancer Registry

March 1, 2023

Fellow Registrars,

March is colorectal Cancer month. I have attached a one-page Colorectal Cancer in Missouri statistical fact sheet based on 2015-2019 data. We hope you find this information useful to your facility and registry.

2023 - V23 Updates

DUE DATES

To be on track, large hospitals (>500 cases/yr.) typically would be expected to have abstracted July 2022 diagnosis cases by January 15, 2023. Smaller facilities (<300 cases /yr.) would be expected to have reported the 2nd Quarter of 2022 by January 15, 2023. We will be monitoring reporting timeliness and completeness **closely** in 2023.

EDUCATION

MCR Help-Line

Reach us at 1-800-392-2829 during regular office hours or leave a message; a member of our QA team will return your call within one business day.

Fundamentals of Abstracting Workshop – Spring 2023

MCR is hosting an on-line Fundamentals of Abstracting course beginning April 1, 2023, to be taken at your own pace through May 15, 2023. This class is geared toward new abstractors who are not familiar with the abstracting process. If you are not familiar with abstracting and/or the required fields, this is a great place to start learning. Students will view fifteen pre-recorded Voice Thread presentations of the Missouri Cancer Registry Abstract Code Manual at their own pace. When completed with the Voice Thread presentations students can work through five practice cases using the Missouri Cancer Registry and Research Abstract Code Manual. The cost of the course is \$50 and will be available on the University of Missouri Canvas platform. You can register for this course by using the following Sign-up Genius link [Missouri Cancer Registry & Research Center: Fundamentals of Abstracting Workshop \(signupgenius.com\)](https://www.signupgenius.com)

Registration is due by March 31, 2023

MCR NEWS

Abstract Plus

MCR is in the process of *phasing out* Abstract Plus. For those who use Abstract Plus currently, we will assist you with transitioning to using Web Plus. Abstract Plus will still be available to use for historical data and generating reports at your facility. Web Plus is internet based, therefore, takes the additional task of upgrading away from the end user. Low volume facilities will need to report 2022 cases via Web Plus. If you are ready to start abstracting 2022 cases, please contact me so we can get you started on Web Plus. We have already successfully transitioned a few facilities to Web Plus.

NEWS FROM THE STANDARD SETTERS

NAACCR

The 2023 NAACCR Implementation Guidelines and Recommendations can be found at <https://www.naacr.org/implementation-guidelines/> This guideline list new and revised data items for 2023. The document also contains other changes you may need to be aware of.
