

Fellow Registrars,

Happy Fall! It's hard to believe summer is over already! The MCR team is actively preparing for the annual Call for Data. Thank you all for submitting 2020 cases and helping us finish up the reporting year. Every case counts toward fighting cancer!

October is National Breast Cancer awareness month. The attached breast cancer one-pager provides statistical information on Missouri's breast cancer population. MCR collaborates with Show Me Healthy Women and the Missouri Cancer Consortium to track and identify areas where breast cancer screening services are needed.

October is also Liver Cancer Awareness month and October 8th is World Hospice and Palliative Care Day.

DUE DATES

To be on track, large hospitals (>500 cases/yr.) typically would be expected to have abstracted March 2022 diagnosis cases by October 15, 2022. Smaller facilities (<300 cases /yr.) would be expected to have reported the 4th Quarter of 2021 by July 15, 2022.

EDUCATION

MCR Help-Line

Reach us at 1-800-392-2829 during regular office hours or leave a message; a member of our QA team will return your call within one business day.

SEER*Educate

2022 SEER Workshop Exercises under Training, SEER Workshop. If you haven't completed the cases, you have until 12/31/2022 to complete for CE credit.

NCRA Award 2022-040, 2.50 CEs, Lung - 5 cases

NCRA Award 2022-041, 2.25 CEs, NET - 5 cases

Log in or sign up at SEER*Educate today by visiting <https://educate.fredhutch.org/> and Learn by Doing!

MCR NEWS

Death Clearance

The annual Death Clearance activities for reporting year 2020 are underway. If you received an email notification requesting follow back information from your facility, please log into WebPlus and relay any information that you may have to help us clear the case. We appreciate your contributions in making this process successful, and it is an essential part for MCR to meet our annual goals!

NEWS FROM THE STANDARD SETTERS

NCDB Releases 2020 Annual CQIP Report

If you are a CoC facility, the 2020 annual Cancer Quality Improvement Program (CQIP) report has been released. For more information, follow this link <https://www.facs.org/for-medical-professionals/news-publications/news-and-articles/cancer-programs-news/081822/ncdb-releases-2020-annual-cqip-report/>

NAACCR

Version 23 Reference Page <https://www.naacr.org/v23referencepage/> NAACCR has posted the 2023 Implementation Guidelines, V23 NAACCR Data Standards and Data Dictionary, NAACCR XML Dictionaries, and many other references for 2022 and 2023 on this page. This is a helpful overview of all 2023 changes with action items for hospital registrar, central registries, and vendors.

NAACCR edits metafile V23 is ready for MCR to customize with MO Specific fields. When this is completed, we will post it to the NAACCR clearinghouse.

NAACCR SSDI and Grade Manuals are available at this link <https://apps.naacr.org/ssdi/list/>

CoC

On October 4, 2022, the Cancer Surgery Standards Program (CSSP) will host a webinar covering need-to-know information related to the CoC Operative Standards for programs with site visits scheduled in 2023, including lessons learned from site visits held in 2022 and guidelines for remediation when a standard is found noncompliant.

MOSTRA UPDATE

The pandemic greatly impacted the organization's ability to provide educational opportunities over the last 3 years. Prior to 2020 MoSTRA had a longstanding reputation for providing excellent annual meetings with great presenters and abundant continuing credit units at an affordable price. The organization provided the opportunity for registrars to meet, exchange ideas, and discuss common problems as well as having some fun and developing friendships along the way. Recently, MoSTRA sent out a survey to those who have been a member in the last 5 years to determine if the contributions as an organization were still worthwhile. Results of the survey revealed interest in continuing as an organization. Currently our board is reviewing and updating our by-laws, committee/workgroup responsibilities and procedures. We are in the process of updating our website MoSTRA <https://mostra-ctr.org/> to meet our current and future needs.

MoSTRA plans to resume hosting an annual educational meeting in the Fall of 2023. The format (in-person, virtual or hybrid) and location of the meeting is still to be determined. The board will be looking for work group members to assist with planning the Fall 2023 conference.

Volunteering for a work group or committee is a great way to get involved and learn more about the benefits of being a MoSTRA member.

To take advantage of the membership rate for the upcoming meeting, you may renew or join MoSTRA through our website. Any dues paid between now and May 31, 2023, will apply to 2023. Membership dues renewal notices will be sent out in January 2023.

For more information about MoSTRA, please contact Jeanie Shaneberger, President at js12292@boone.health or call 573 815 3310.
